

Bebop **muzo**

Improve posture and strengthen core muscles whilst sitting or perching on Bebop.

Bebop active seats were developed as a fun way to strengthen core muscles and improve posture while sitting or perching. Easily moves around your space via the pull handle and glide/swivel base. Perfect for impromptu needs, team working and versatile spaces.

Bebop is a fun and versatile product that can be used to create a flexible and impromptu charging zone when combined with mobile charging units such as Powerball.

Performance points

Mix and match
Mix the seat and body fabrics to create appealing and unique finishes.

Strength and comfort
Plywood interior core make Bebop robust and the supportive foam cushioning creates a pleasurable sitting experience.

Pull handle
Easily move Bebop around with the soft handle.

Swivel base
Rotates beautifully thanks to the strengthened swivel wood base.

Finish options

Seat and Body

Upholstered in a selection of standard Camira finishes. See the Blazer or Landscape range.

Base

Laminated contoured wood
